Annual Reports Can be Submitted Online

[< Return to the Non-Public Education Home Page](#)

Each August, home schools which are then beginning their 2nd or more consecutive year of being listed with DNPE are able to save postage and time by **voluntarily** submitting their annual reports online – rather than completing and mailing the return portion of the double cherry or gray colored 4" x 6" postal card they receive each August from DNPE. The opportunity to do so, however, is available only for 61 days each year beginning August 1 and concluding the next month on September 30. Accessibility details are provided inside the double postal card which each 2nd year or older home school receives each August.

Home school administrators are encouraged to take time now to become more familiar with this process by viewing a power point slide presentation showing each of the various web pages one will see throughout the process of submitting it online. Take time to carefully read through the instructions on each slide. Doing so now may dispel any initial anxiety or frustration about how it functions.
